

Digitally Blended Virtual 'Learning Circles'

Virtual Workshop INTERACTIONS

- 1 Initiating and sustaining productive **DISCUSSIONS** are among the most challenging activities for any facilitator. We draw our inspiration from many strategies.
- 2 We place tremendous importance and emphasis on interactive and enjoyable **LEARNING ACTIONS** during our digitally blended learning sessions.
- 3 One of the most effective methods of learning is 'learning by doing'. Our Learning Circles focus on **EXPERIENTIAL** activities to engage Learners.
- 4 Involving different levels of Learners in a variety of different ways provides a **COLLABORATIVE** learning environment increasing knowledge retention.
- 5 It is important for Learners to know their strengths and weaknesses, so our **EVALUATIONS** strengths are both individual and group driven by the LMS system.
- 6 After the Digitally Blended Learning, Learners will be able to more easily **REFLECT** on their learning experience and know what they need to work on in order to be more successful.
